

Year 4 Summer 1 learning

Maths

White Rose Maths home learning packs are available for the next 6 weeks

www.whiterosemaths.com/homelearning/year-4/

Don't forget to log into Times table rock stars to practise your tables too.

www.ttrockstars.com

Ark Curriculum Plus have also made home learning packs for both maths and English available at the following link

www.mathematicsmastery.org/free-resources

English

Our non-fiction book for this half term is Charlotte's Web. It would be great if you could get hold of a copy and read the book yourself. If not there are plenty of free audio versions on youtube for you to listen to and read along with.

Here is the front cover – can you make some predictions about what you think the story is about?

I have found a link for chapter one and included some activities for this chapter.

<https://www.familyeducation.com/charlottes-web-chapter-one>

Discussion Task

1. What is a genre?
2. What genre is Charlotte's Web?
3. What do you expect from this genre?
4. Write questions you have about Charlotte's Web – something you would like to know.

Reading Task

1. Why was Fern so upset about the axe?
2. Which characters do we meet in chapter 1?
3. Do you agree with Mr Arable or Fern about the runt? Why? Try to see it from both sides.

Vocab Task

Scan through chapter 1. Can you find any unusual words? Make a list and try to find the definitions.

Writing Task

Choose one of the characters from chapter 1 and write a character description or a day in the life of....the goat, cow etc, telling the reader what it is like living on the farm. Remember to include all punctuation and some of our year 4 writing objectives. You could also draw a picture.

If you do manage to read / listen to the full book here are more great activities that you can get on with like diary entries from different

characters' perspectives and also newspaper reports. Here are some ideas:

Our spellings for the next 6 weeks are already on and there is a link below (6th April). Complete the usual spelling tasks that you would do in class.

Science

Our science topic is Living Things and their Habitats. You will find lots of brilliant websites about animals and the different habitats that they live in. <https://www.dkfindout.com/us/animals-and-nature/habitats-and-ecosystems/>

Write an information booklet about the different animals you are interested in and maybe even make a model of their habitat.

History

Our topic is the Vikings. There are so many websites for you to find out who the Vikings were, where they came from and what you can about what life was like during these times.

<https://www.bbc.co.uk/bitesize/topics/ztyr9j6>

<https://www.bbc.co.uk/bitesize/topics/ztyr9j6/articles/zjcxwty>

Make a booklet telling me all you can about what you have found out about the Vikings.

Art & DT

We were going to design and make a Viking mask, this is something you could do at home. Why don't you design and make some Viking jewellery or even a Viking long boat.

Music

Listen to, and evaluate, some music by our class composers – our classical composer Beethoven and our contemporary composer Freddie Mercury. Could you research them both and write a biography about their lives?

PE

Why not join in with Jo Wicks every day Monday – Friday at 9.30am on you tube, go for a daily walk, jog, bike ride with a member of your household....make sure to stay 2m away from other people you may pass!

If you have a garden set up a mini obstacle course. Maybe you have a trampoline in your garden – make sure you use it to keep fit!

Try your best to complete some of these activities but most of all stay safe and be happy!!

Mrs Bailey
